

COUNTRY SOUNDS

with Rick O'Shay

A FIRST full-length album has been produced by Root 'n' Toot 'n', an authentic hillbilly trio who made a big impact with the demonstration CD they produced earlier this year as well as their appearances on the circuit.

The wide mixture reflects their lively performances including *She's My Baby* which has been written by lead guitarist Colin Mee.

This is a great sounding album with the trio's individual style and sound making it unique.

Details of how to buy it and the line dances which fit all the songs are available on their website which is www.rootntootn.co.uk
